LET YOUR MUSCLES
SHAPE YOU

NOVA VISION
MAKING FUTURE

LET YOUR MUSCLES
SHAPE YOU

**PERSONALIZED BODY
SCULPTING TECHNOLOGY** that
can shape and tone up the body
in a relaxing way, using **controlled
supertraining**.

Controlled supertraining

M Shape™ simulates an **intensive
training** on your body, four times
more intensive than traditional
trainings.

By means of multiple energies
and sinusoidal waves, the
device executes a targeted
action on the concerned
muscles **with no risk of
overttraining**.

*The treatment is
non-invasive and
painless.*

**ZERO DOWNTIME
RAPID AND
LASTING
RESULTS**

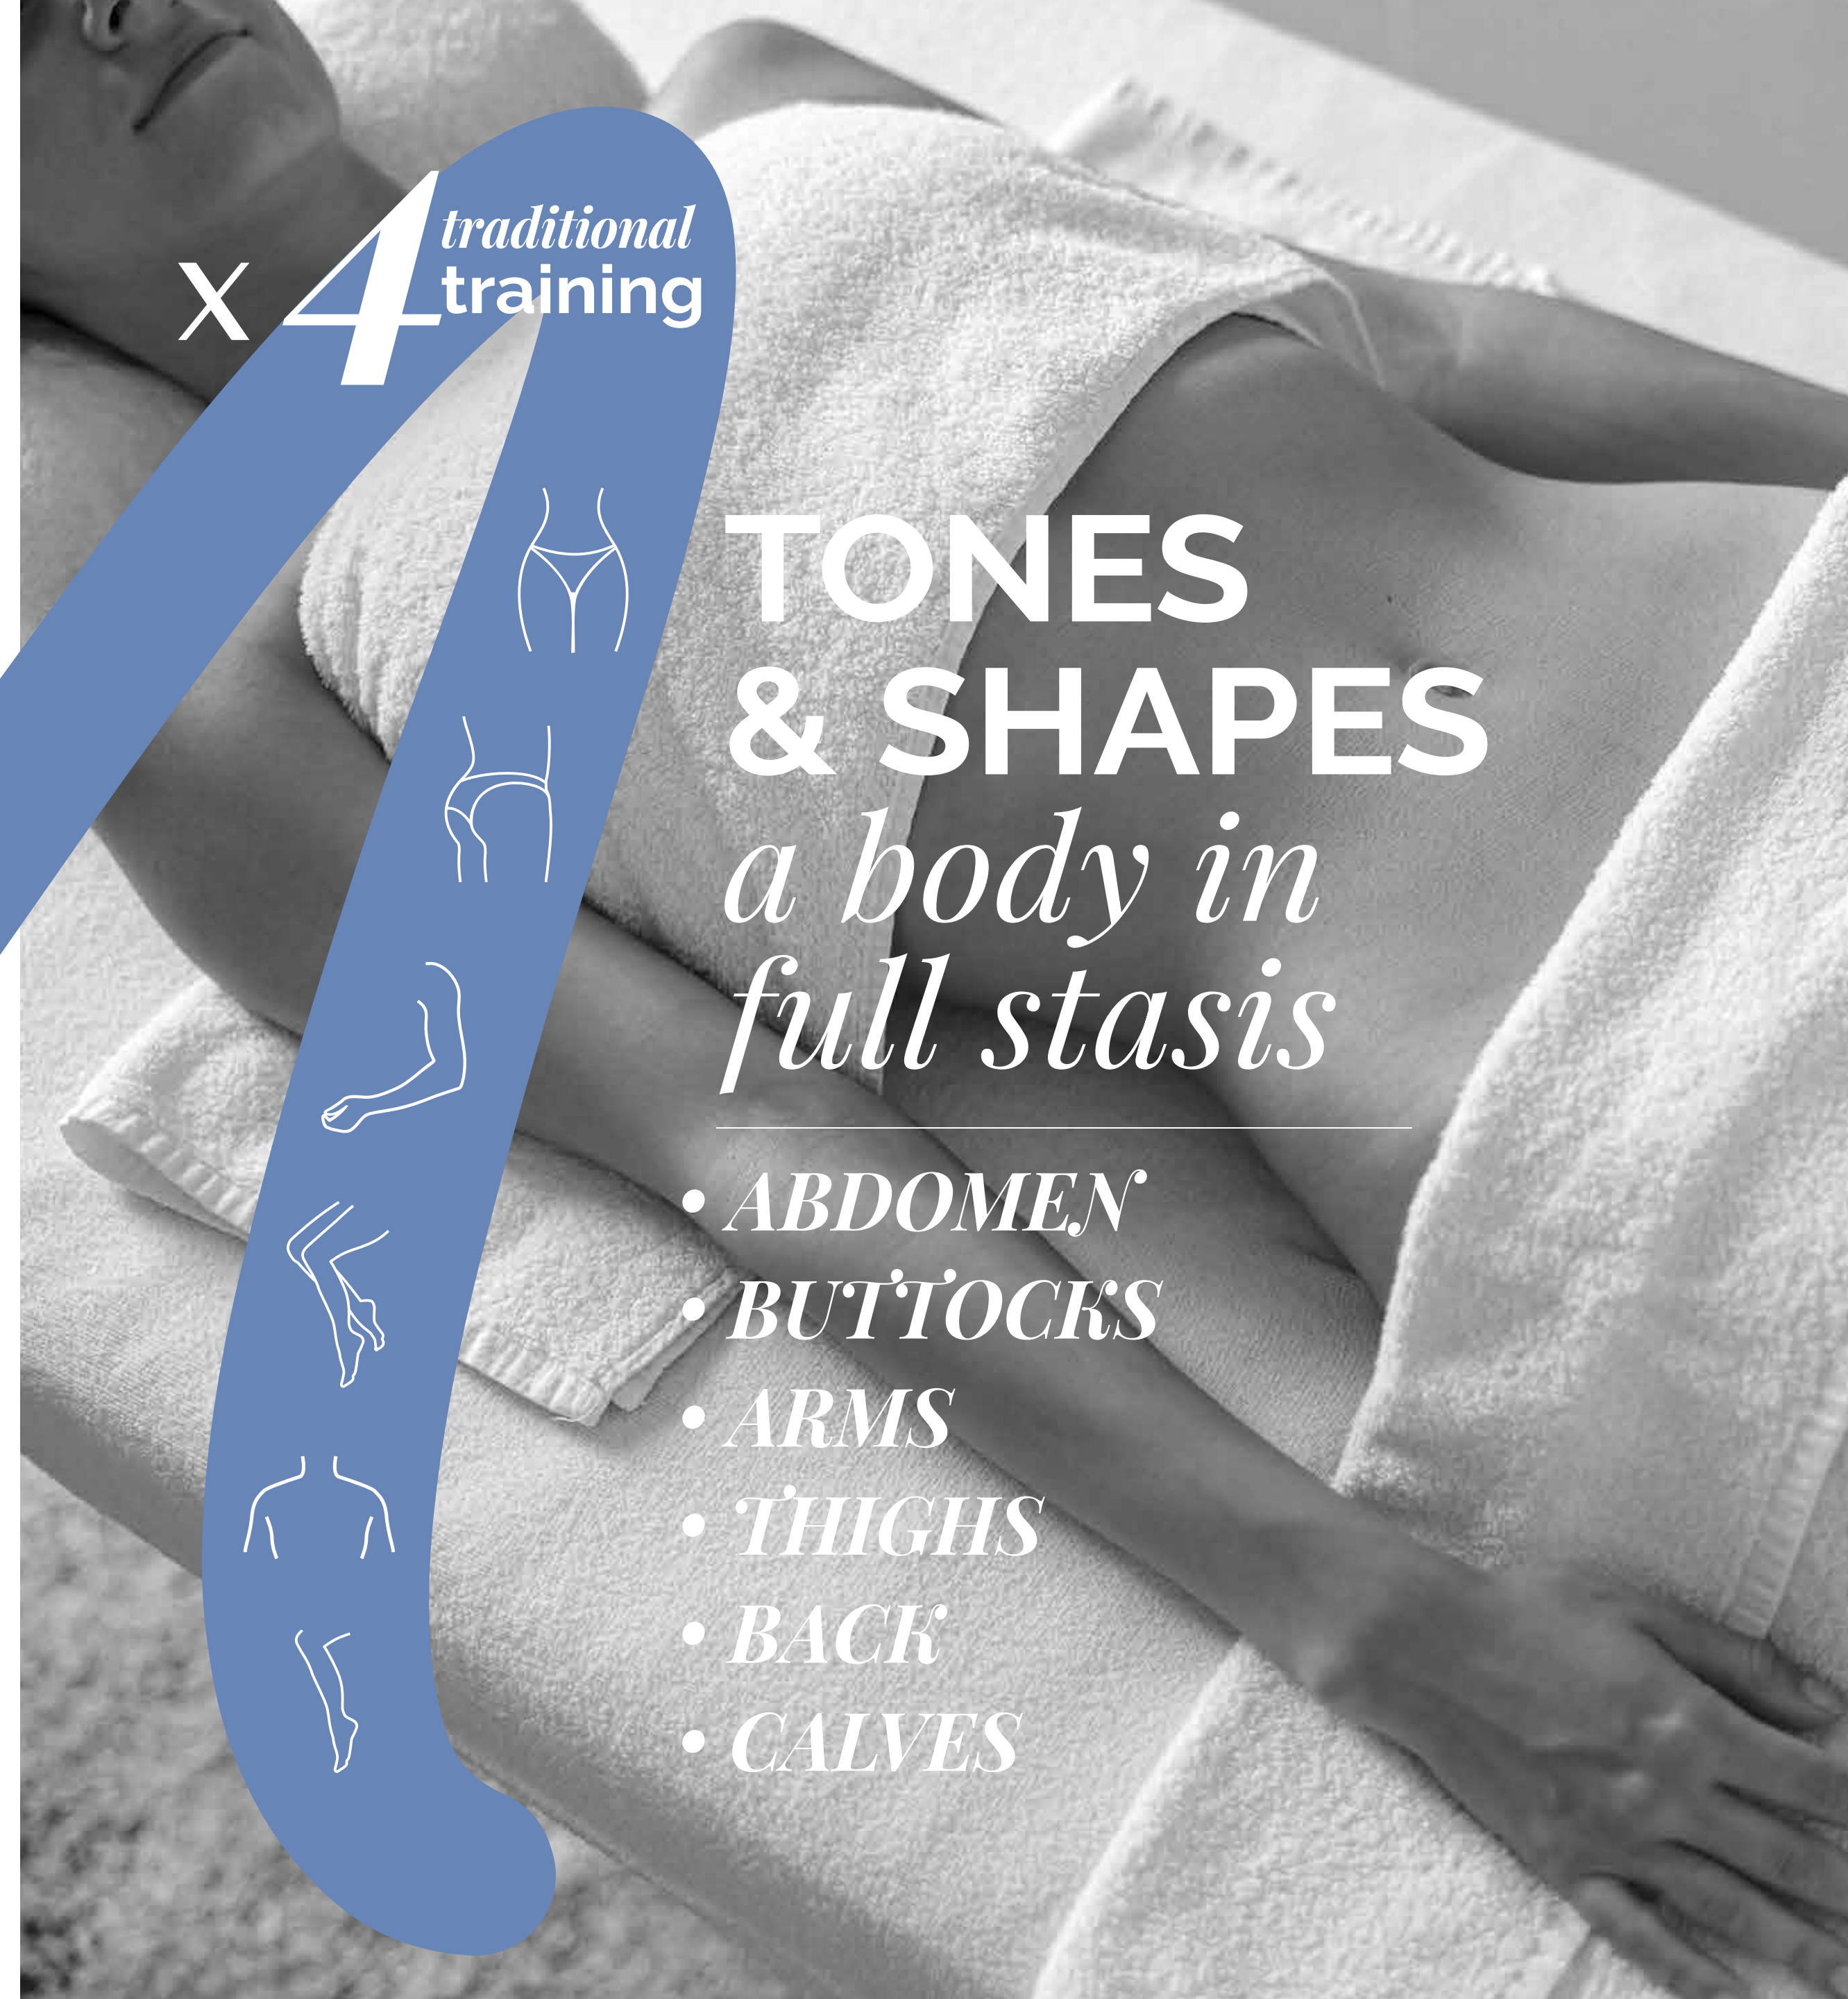

TREATMENT
20/40
minutes

**HAND

DEVICE**

x **4** *traditional
training*

**TONES
& SHAPES**
*a body in
full stasis*

- *ABDOMEN*
- *BUTTOCKS*
- *ARMS*
- *THIGHS*
- *BACK*
- *CALVES*

DQME

DYNAMIC QUADRIPOLAR MULTIPLE ENERGY

Dynamic Quadripolar Multiple Energy is the new technology developed by Novavision laboratories combining different types of energy, thus providing an all-in-one solution for muscle toning and total body reshaping.

Up to 300.000
contractions
/session

Zero Downtime

Harmonious, physiological contractions guarantee that myofibrillas will suffer no microtraumas.

MULTIPLE ENERGIES

EBE - Electro Bio Energy

Electro Bio Energy - variable-frequency sinusoidal waves, generates dynamic physiological contractions, strengthens, tones up, sculpts and hardens muscles.

SME - Static Magnetic Energy

Static Magnetic Energy activates cells and produces a bio-regenerating, anti-inflammatory action as well as, most importantly, supports the muscle during the supertraining activity.

Action total body

The lack of load and the constant presence of oxygen make the treatment suitable for untrained subjects as well.

- TONES UP
 - REDUCES CIRCUMFERENCE
 - INCREASES MUSCULAR RESISTANCE
 - STIMULATES METABOLISM
 - BURNS FAT
 - IMPROVES CELL FUNCTIONING
-

MShape™ guarantees a greater, longer muscle contraction compared to normal voluntary contractions.

Actions of twisting, crunching and muscles squatting.

Tailored programs based on:

- / FITNESS LEVEL
- / PHYSICAL SHAPE
- / USER'S GOALS

4 independent CHANNELS
act on the body through MSources

	MSHAPE	MAGNETIC INDUCTION	ELECTROSTIMULATION
DIFFERENT ENERGY	2	1	1
ABSORPTION (W)	< 100	>2500	<100
WORKOUT INTENSITY	HIGH	moderate	moderate
WARMUP TREAT	YES	no	no
PHASES TREATMENT	8	1	n/a
TREAT AREA (SCM)	784	<	<
TRAINING MODE	4	1	n/a
TECHNOLOGY	DQME, EBE, SME, BCF	hifem	
CHANNEL	4X4 (with different program)	2/4	1/4

BIOFEEDBACK CONTROL

BFC technology makes the session even more comfortable, by involving the user himself and allowing him to stop the treatment at any time.

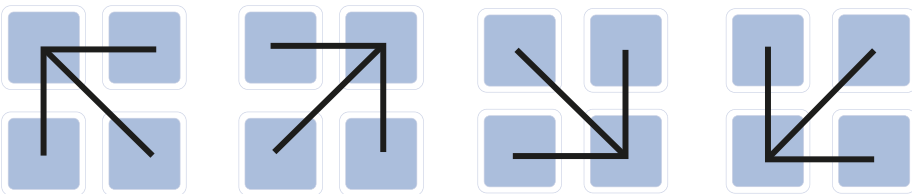

Simulates all THE PHASES OF A TRADITIONAL TRAINING SESSION

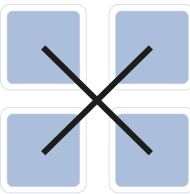

All-round action

Energy is channelled onto muscle bundles alone, with varying frequency and settings, resulting in a precise, complete action on muscles.
